

MOSSBERG® MMR™ CARBINE SEMI-AUTOMATIC RIFLES

PERFECT FOR COMPETITION, HUNTING, RECREATION OR HOME SECURITY

The MMR™ Carbine: All the modern sporting rifle essentials... combined in a great new Mossberg rifle.

- Mossberg has designed the perfect multi-use modern sporting rifle, a sturdy, accurate performer for competition, hunting, recreation or home security use.
- Key features include a free-floating barrel for superior down-range accuracy; direct-impingement gas system; adjustable target sights; slim-profile Magpul® M-LOK® forend/hand guard, MOE grip and trigger guard; and choice of 6-position or fixed-length stock.
- The MMR Carbine is chambered in 5.56mm NATO/223 REM, with 30-Round and 10-Round (Compliant and CA Compliant) models.

Adjustable stock and slim-profile hand guard make the MMR Carbine comfortable for shooters in all disciplines.

MMR

MMR SPORT (#65074)
5.56MM NATO/223 REM
30 ROUND MAGAZINE,
ADJUSTABLE STOCK

MMR SPORT (#65075)
5.56MM NATO/223 REM
10 ROUND MAGAZINE,
FIXED-LENGTH STOCK

A flat-top full-length rail holds adjustable front and rear target sights, which are removable for alternative customization with accessories or optics.

The slim-profile forend/hand guard uses the M-LOK modular mounting system, a direct attachment method for hard mounting accessories to a negative space mounting point. (M-LOK-compatible accessories shown, not included)

MOSSBERG® 590A1™ & 590® 7-SHOT TACTICAL SHOTGUNS

HIGHER CAPACITY VARIANTS OF OUR LEGENDARY TACTICAL PUMP-ACTIONS

The convenience and flexibility of 7-Shot capacity, kept within typical 6-Shot dimensions.

- With decades of service behind them, our MilSpec 590A1 and 590 shotguns are depended upon for duty and security applications, by dedicated users all over the world.
- These five new models bring 7-shot flexibility to 18.5"-barrelled pumps — which have typically been limited to six shots.
- All the features of the venerable Mossberg pumps are there: ambidextrous safety, dual extractors, positive steel-to-steel lockup, twin action bars, and a smooth operating anti-jam elevator.

MOSSBERG® 930™ PRO-SERIES SPORTING SHOTGUN

WITH PRO-SERIES COATINGS/FINISHING TO STAND UP TO THE RIGORS OF COMPETITION

The newly designed, handsomely-appointed 930™ Pro-Series Sporting gives clays shooters the competitive edge.

- The 930 Pro-Series Sporting was designed in collaboration with Gil Ash, a professional shooting instructor at the renowned OSP School, and contributing writer and shooting editor for *Sporting Clays* magazine.

Competition-ready features include a beveled loading gate; premium Pro-Series coatings and finishing (diagram, at right); Cerakote®-finished receiver; Briley® chokes; and HiViz® TriComp™ sight.

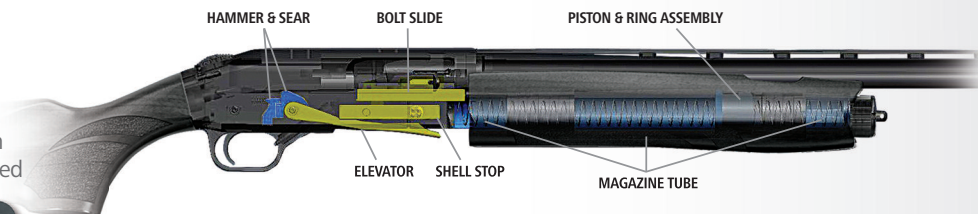

- The new ergonomically-designed walnut stock includes Mossberg's Stock Drop System of drop-at-comb adjustment shims — that provide shooters of all sizes a comfortable, customizable fit.
- Every 930 Pro-Series Sporting purchase comes with a FREE 60-Day trial subscription to the OSP School's *Knowledge Vault*, a first-class collection of instructional articles and 1000+ videos on clays and wing shooting.

930™ PRO-SERIES SPORTING WITH WALNUT STOCK, CERAKOTE RECEIVER AND PRO-SERIES COATED PARTS

STOCK DROP SYSTEM

PRO-SERIES PREMIUM FINISHES FOR RELIABILITY AND INCREASED PERFORMANCE

- Boron nitride coated gas piston, piston rings, magazine tube, hammer and sear prevents corrosion, and facilitates cleaning (in blue).
- The shell stop, bolt slide and elevator receive additional finishing to reduce friction for faster follow-up shots (in yellow).

The receiver has a tough, durable Cerakote® finish; and the beveled loading gate and extra finishing on the elevator facilitates quick and easy reloads in the heat of competition.

The TriComp sight utilizes nine interchangeable LitePipes, in three colors and three shapes of varied height, for superior sighting for any competitive environment.

Briley® Chokes (Skeet, Improved Cylinder and Modified) come engraved with constrictions for easy selection, and are housed in a handy carrying case.

MOSSBERG® 930™ PRO-SERIES SPORTING SHOTGUN

DESIGNED IN COLLABORATION WITH CLAYS CHAMPION & OSP SCHOOL INSTRUCTOR, GIL ASH.

"The new 930 Pro Series Sporting shotgun was designed to create a gun that shoots where you look, so the shooter can take their focus off the barrel, and place it on the target for a successful shot." — Gil Ash, OSP Shooting School

Gil Ash (right) with his wife, Vicki. Every year, they teach thousands of students at all levels to become better shooters.

The 930™ Pro-Series Sporting was designed in collaboration with champion shooter, professional shooting instructor, and *Sporting Clays* magazine editor — Gil Ash. With its unique combination of features, this new competition gun succeeds at producing a gun that fits almost anyone out of the box.

About Gil Ash

Gil Ash is a full-time, professional shooting instructor at the renowned OPS School. Along with his wife Vicki, both are NSCA Level III certified. With a regular column in the official publication for the National Sporting Clays Association, they are the shooting editors for *Sporting Clays* magazine.

Together, they teach some 2,000 people of all levels each year in their personal lessons, group clinics, and seminars. They witness an excess of 500,000 shotgun shells each year, and as a result, bring enthusiastic new additions to their teaching regime with each passing year.

Gil has won numerous titles in both skeet and sporting clay competitions and has taught professionally since 1984. He was also an instructor for the Holland & Holland Shooting School of England and has studied with many great shooters and instructors. He has been featured on ESPN, TNN and hosted a regular spot on the television show "Pull— America's Great Gun Clubs" on the Outdoor Life cable channel.

About OSP Knowledge Vault — a multi-media instructional resource on clays shooting, provided as a free 60-Day trial subscription with every 930 Pro-Series Sporting shotgun.

The OSP Knowledge Vault is the largest single source library of performance-improving data on wing shooting and clay shooting in the world. It allows users to learn — online — how to improve their clay or wing shooting techniques with over 1000 video lessons, and thousands of pages of available blogs, books and magazine articles on a variety of subjects. The site features a keyword-searchable database and user-friendly interface.
