FOR IMMEDIATE RELEASE

January 3, 2024

## Mossberg® Adds 940® Pro Turkey Holosun® Micro Dot Combo

**NORTH HAVEN, CT** – Further expanding its family of 940 Pro 12-gauge autoloading shotguns, Mossberg adds the convenience of a combo, their 18.5-inch 940 Pro Turkey Optic Ready platform with a factory-mounted Holosun HS407K micro dot sight. This full-featured, dedicated turkey shotgun is designed for the hardcore hunter and is ready to take afield with its premium features, finishes, and full-camo coverage.

At the core of the 940 Pro is a gas system that may run up to 1,500 rounds before cleaning and will cycle factory-manufactured 2.75 or 3-inch ammunition, 1 1/8 oz or greater. Internal parts (gas piston, magazine tube, hammer, and sear) feature nickel boron-coating and extra finishing for corrosion resistance and reliable performance.

Performance-driven features include oversized, beveled loading port with redesigned elevator and shell catch to allow for efficient and pinch-free loading into the magazine tube; barrel-making process to maintain point-of-aim and impact; slim-profile forend and self-draining stock that is user-configurable for length-of-pull (13 – 14.25 inches), drop, and cast; and oversized charging handle and paddle-style bolt release for ease of operation.

This 940 Pro Turkey combo features a Holosun HS407K micro dot sight that is mounted directly into the patent-pending optic cut on the receiver. This open reflex sight has a 6 MOA Dot reticle; 12 brightness levels; unlimited eye relief; convenient battery tray; Shake Awake feature; and up to 50,000 hours battery life. And to enhance concealment, the sight features an olive drab green finish.

Adding to the 940 Pro's concealment is full coverage with Mossy Oak® Greenleaf™ camouflage. Their versatile Greenleaf pattern provides silhouette concealment with its blend of dirt, bark, moss, and oak sapling elements and blends in naturally with most terrains.

**940 Pro Turkey Holosun Micro Dot Combo (85169)** - This compact 12-gauge has an 18.5-inch vent rib barrel, features a HIVIZ® CompSight® front fiber optic sight, and comes equipped with a ported X-Factor XX-Full choke tube (fully compatible with other AccuChoke tubes; sold separately). The Holosun HS407K micro dot sight is mounted directly to the optic in the receiver. And rounding out this 940 Pro Turkey is aggressive Mossberg signature texturing on the synthetic stock and forend; full camo coverage; sling swivel studs; drilled and tapped receiver; and top-mounted safety for ease of use by right or left-handed shooters. MSRP: \$1,406

For more information on this field-ready combo and Mossberg's expansive line of autoloading, pump-action, and over-and-under dedicated turkey shotguns, please visit [www.mossberg.com](http://www.mossberg.com).
