Mossberg International, Inc.™ Brings SA-20 and SA-28 Shotguns to Turkey Line-Up

North Haven, CT – Mossberg International, Inc. is importing three new turkey guns to expand the SA-Series of autoloaders: fully-camouflaged **SA-20 and SA-28 Turkey Pistol Grip** versions and a **SA-20 Turkey** with camo-covered, classic stock and forend; featuring Mossy Oak® Greenleaf™ camo. Small-gauge shotguns combined with today's denser, more effective shotshells have extended ranges for these sub-gauges and grown in popularity. And thanks to their lightweight, soft-shooting and quick-handling qualities, these autoloaders are surprisingly effective on longbeards and a pleasure to carry in the field.

SA-Series autoloaders begin with a well-designed gas operating system that vents excess gases, reducing recoil for the shooter and lessening stress on components for smooth, reliable operation. Chambered in 20 gauge (3-inch) and 28 gauge (2.75-inch), all models feature a five-round total capacity and 22-inch vent rib barrels with the versatility of an interchangeable choke tube system (Extended Turkey choke tube included). Barrels are topped with fiber optic Ghost Ring sights and receivers feature a Picatinny rail for ease of adding optics. Other standard features include a cross-bolt safety; extended charging handle; and easy-load elevator.

Mossy Oak's Greenleaf pattern offers silhouette concealment with its blend of dirt, bark, moss, and oak sapling elements. Whether you are hunting the hardwoods of the southeast or the rugged terrain of west Texas, Greenleaf keeps you from getting busted by a wary longbeard.

SA-20 Turkey Pistol Grip (75799) – This autoloader is equipped with a compact pistol grip stock (12.75-inch length-of-pull); full camo-coverage with Mossy Oak Greenleaf on stock, forend, receiver, and 22-inch barrel. Target acquisition is enhanced with the combination of a fiber optic front sight and adjustable Ghost Ring rear sight. Completing this package is top-mounted rail; Extended Turkey choke tube; and front and rear sling swivel studs. MSRP: \$902

SA-20 Turkey (75801) – This version features a camouflaged forend and classically-styled stock with 14.25-inch length-of-pull; 22-inch barrel with Extended Turkey choke tube; fiber optic front sight and adjustable Ghost Ring rear sight; and sling swivel studs. A top-mounted rail provides for ease of adding an optic. MSRP: \$816

SA-28 Turkey Pistol Grip (75802) – Looking for a low-recoiling option, this SA-28 features a pistol grip-style stock with 12.75-inch length-of-pull with Mossy Oak Greenleaf camo coverage on the stock, forend, receiver, and barrel. Fiber optic front sight and adjustable Ghost Ring rear sight top the 22-inch barrel. Rounding out this offering is an Extended Turkey choke tube; top-mounted rail; and sling swivel studs. MSRP: \$902

The SA-Series of sub-gauge autoloaders are easy-to carry, quick-swinging and reliable; and turkeys don't stand a chance with their performance in the field. For more information on the complete line of SA-20, SA-28 and SA-410 Turkey shotguns, please visit www.mossberg.com.
