FOR IMMEDIATE RELEASE

January 9, 2026

## Mossberg® Adds 590R™ and 590RM™ Pump-Action Shotguns with Chisel Machining Folding Stock Mounts

**NORTH HAVEN, CT** – Mossberg is pleased to announce the introduction of the 590R Chisel and 590RM Chisel, expanding the 590R/RM platform with premium configurations developed in collaboration with Chisel Machining. These new models combine Mossberg's pistol-grip rotary safety, pump-action shotguns with enhanced ergonomics, compact handling, and rugged styling designed for tactical and defensive applications.

The 590R Chisel is configured with an 18.5-inch barrel with integrated heat shield, and features a Chisel Machining folding stock mount, providing a solid shooting platform with the added benefit of compact storage and transport. The shotgun is finished with a Flat Dark Earth Cerakote® receiver, delivering increased corrosion resistance and a distinctive appearance.

Designed for maximum compactness, the 590RM Chisel features an 11.5-inch barrel and a 10-round detachable magazine, offering impressive firepower in a highly maneuverable package. Like its full-size counterpart, the 590RM Chisel is equipped with a Chisel Machining folding stock mount and a Flat Dark Earth Cerakote receiver, providing durability and consistent aesthetics across the line.

Both models are built on Mossberg's pistol grip rotary safety pump-action shotgun platform, which allows for positive feeding, and reliable performance. The folding stock design enhances adaptability in confined spaces while maintaining control and shootability when utilized.

### Key Features of the 590R/RM Chisel Pump-Action Shotguns:

- Ambidextrous, rotary safety selector that can be reached without breaking grip.
- Mossberg-designed stock with eight positions of adjustment (12.5 – 16.0 inches), interchangeable recoil pad, and 2-sided QD cups. The front QD cup is located on the mag cap.
- Chisel Machining folding stock mount.
- Magpul MOE+ pistol grip.
- Accu-Choke™ System for adding a suppressor.
- Flat profile trigger with smooth, crisp break.
- Top Picatinny rail for ease of adding optics.
- Enlarged, beveled loading port with extended follower for ease of loading (590R only).
- Elongated bolt release.
- E-coated internal and external receiver for durability and smoother finish.

Chisel Machining, based in California, is known for designing and manufacturing premium firearm components and accessories focused on strength, precision, and practical functionality. Their products are engineered and machined in the USA, with an emphasis on robust materials, clean industrial design, and real-world performance. The Chisel Machining folding stock featured on the 590R/RM Chisel reflects the company's commitment to durable, purpose-driven solutions for modern firearms.

With the introduction of the 590R/RM Chisel, Mossberg continues to expand the versatility of its 590R/RM lineup, delivering innovative configurations that meet the needs of professional users and enthusiasts alike.
