FOR IMMEDIATE RELEASE

January 23, 2018

Mossberg® Adds 930™ and 835® Ulti-Mag® Multi-Purpose Field Models 26 or 28-Inch Barrel Lengths in Black and Bottomland® Camo Options for Greater Versatility

North Haven, CT – Choose from two new 12-gauge, 3-inch field versions of Mossberg's reliable 930 autoloader and two field models of the world's first 12-gauge, 3.5-inch pump-action, the Mossberg 835 Ulti-Mag. These multi-purpose hunting guns are available with 26-inch barrel lengths in a fully-camouflaged, Mossy Oak® Bottomland package with versatile ACCU-CHOKE™ (930 model) and ACCU-MAG™ (835 Ulti-Mag model) choke tube systems plus a Turkey-designated choke tube; a 28-inch barrel length with black synthetic stock and forend (930); and a 26-inch barrel length with black synthetic stock and forend (835 Ulti-Mag) with respective choke tube systems.

The Mossberg 930 autoloader has gained recognition for its reliability, smooth-cycling and low-recoiling operation. At the core of these 12-gauge, chambered for 2.75 and 3-inch shells, is Mossberg's dual vent-gas system combined with performance-enhancing features: beveled loading gate for ease of reloading; Mossberg's Stock Drop System that adjusts the vertical angle of the stock (drop at comb) for a custom-like fit; and set of ACCU-CHOKE choke tubes (Full, Modified and Improved Cylinder) to modify your pattern based on your shotshell choice or the hunting conditions. The 930 also has an easy quick-empty release button which provides for convenient unloading of shells from the magazine; mag cap and rear sling swivel studs; drilled and tapped receiver; and top-mounted, ambidextrous safety.

930 Autoloading Field Shotgun Bottomland (85213) – Designed for multi-season use, this fully camouflaged autoloader features Bottomland camo, the original pattern that launched Mossy Oak more than 30 years ago. Combining bark, sticks and leaves, Bottomland blends in whether you are hunting in dark hardwoods, flooded timber or from your treestand. This 930 has a versatile 26-inch vent rib barrel, topped with a fiber optic front sight, and equipped with an interchangeable ACCU-SET system of choke tubes (Full, Modified and Improved Cylinder) plus an X-FACTOR™ Ported XX-Full Turkey choke tube. MSRP: \$640

930 Autoloading Field Shotgun (85127) – This black synthetic version features a 28-inch vent rib barrel, fiber optic front sight and multi-choke ACCU-SET system. Exposed metalwork features a matte blue finish. MSRP: \$560

The Mossberg 835 Ulti-Mag was the first 12-gauge, pump-action designed for 3.5-inch shotshells; making this shotgun the ultimate multi-season, multi-species gun with its ability to handle 2.75, 3 and 3.5-inch shells. The 835 is based upon Mossberg's proven pump-action design that features dual extractors, twin-action bars, positive steel-to-steel lock-up and an anti-jam elevator; and features Mossberg's universally-recognized, ambidextrous top-mounted safety. Other standard features include vent rib barrel with ACCU-MAG choke compatibility; drilled and tapped receiver; and mag cap and rear sling swivel studs.

835 Ulti-Mag Pump-Action Field Shotgun Bottomland – For the ultimate in concealment and game options, this pump-action features durable synthetic stock and forend, receiver and barrel fully-covered with Mossy Oak Bottomland. The 26-inch vent rib barrel is overbored for delivering dense, uniform patterns and recoil reduction; and comes with a light-

gathering fiber optic sight and ACCU-MAG choke tube system. Full, Modified and Improved Cylinder choke tubes are included plus Mossberg's X-FACTOR Ported Ulti-Full Turkey choke tube. MSRP: \$603

835 Ulti-Mag Pump-Action Field Shotgun (66723) – If you prefer a more affordable, but no less versatile, option – this 835 has a weather-resistant black synthetic stock and forend, matte blue metal finishes and 26-inch vent rib barrel. Additional features include bead front sight and ACCU-MAG choke tube set with Full, Modified and Improved Cylinder choke tubes. MSRP: \$518

Regardless of the quarry – ducks, turkeys, upland birds or small game, you need a reliable, dependable and performance-driven shotgun, look no further than Mossberg's extensive line of 930 autoloading and 835 Ulti-Mag pump-action shotguns. For specifications on these Field versions, the complete lines of 930 and 835 Ulti-Mag offerings and other members of the Mossberg shotgun family: the 935 Magnum™, 535 AT5™ and venerable 500® shotguns, please visit www.mossberg.com.
