Mossberg® Announces 350 Legend Offerings Joining Patriot™ Line-Up

North Haven, CT – Looking for the latest high performance, straight-walled cartridge offering for multi-game, multi-season hunting? Look no further than the newest offerings from Mossberg; the classically-styled **Patriot Synthetic** and **Patriot Synthetic Super Bantam** bolt-action rifles chambered in 350 Legend. Both models also available in Scoped Combos with a variable 3-9x40mm riflescope.

Built with hunters in mind, the 350 Legend is the fastest straight-walled hunting cartridge available while offering more energy, less recoil and increased penetration over many of its competitors. Combining the 350 Legend on-game performance with the feature-rich Mossberg Patriot bolt-action rifle makes this duo a great choice for deer, feral hogs, black bear and other medium-size game. Deer hunting opportunities are also expanded in areas where straight-walled cartridges are now allowed in previously-restricted (slug-shotgun, handgun and muzzleloader) zones.

Patriot bolt-action rifles feature a well-designed stock with straight comb; rounded edges; raised cheek piece; and black rubber recoil pad. Constructed of durable synthetic, the stock has textured stippling on the grip and the three surface areas of the forend for a solid grip. The standard contour 22-inch carbon steel barrel is free-floating, features a 1:16 twist rate and matte blue finish. Completing these offerings are Mossberg’s LBA user-adjustable trigger (2 to 7-pound range of adjustment); spiral-fluted bolt; streamlined and checkered bolt handle; receiver-mounted, weaver-style scope bases; sling swivel studs; and 4-round box magazine. The Scoped Combo versions feature a 3-9x40mm riflescope.

For younger shooters or seasoned shooters who require a shorter length-of-pull (LOP), Mossberg’s innovative variable LOP stock, featured on the Patriot Super Bantam, includes a one-inch spacer. As the user grows, adding the spacer increases the LOP from 12 to 13 inches or simply use the spacer to customize your fit.

With decreased muzzle blast and extremely low recoil, the Mossberg Patriot Synthetic and Patriot Synthetic Super Bantam rifles, chambered in 350 Legend, make for a more enjoyable experience in the field without sacrificing performance. For more information on the complete line of Patriot bolt-action rifles, please visit www.mossberg.com.
