Mossberg® Announces 590® Pump-Action Shotgun Line Additions

NORTH HAVEN, CT – O.F. Mossberg & Sons, Inc., a leading American firearms manufacturer, is announcing additions to its 590 Pump-Action product line. Additions include expanded capacities (6, 7 and 9-shot); flexibility of stock and pistol grip interchangeability; and the addition of 20 gauge and 410 bore chamberings in the 590 line-up, joining the venerable 12 gauge.

590 Tactical shotguns are based upon Mossberg's proven 500 pump-action platform and include non-binding twin action bars; positive steel-to-steel lock-up and anti-jam elevator; dual extractors; drilled and tapped receivers; cylinder bores; and universally-recognized, ambidextrous top-mounted safety. Enhancing the decades-proven 500 platform is a convenient clean-out magazine tube with cap for ease of maintenance on all 590 shotguns.

Available models in the 590 Series include the **590 Persuader** (full-length stock); **590 Cruiser**® (pistol-grip stock); **590 Persuader/Cruiser Kits**; **590 Chainsaw** with tri-rail forend; and **590 FLEX™/Cruiser Kits**. Select models are available in 20 gauge, 410 bore and with Compact stocks (shorter length-of-pull). Optional sight systems include white dot, Ghost Ring, bead; and rail-mounted Ghost Ring rear sight combined with a fiber optic front sight. Barrel lengths include standard 18.5-inch and 20-inch; 18.5-inch standoff barrels; and 20-inch barrels with optional heat shields. In total, ten new upgraded or converted 590 pump-actions. Capacities vary, based on the individual model, but include 6-shot, 7-shot and 9-shot versions.

Versatility is at the heart of the 590 platform and the models featuring Mossberg's patented FLEX System Stock redefine the ability to custom fit or adapt your shotgun. With its system of quick-change connectors and ease of no tools required, you change out your stock components. Your 590 can convert from a close-quarters, pistol grip platform to a versatile 6-position adjustable stocked-gun in seconds. Additional customization to the length-of-pull can be facilitated by interchangeable, accessory recoil pads; available in a variety of thicknesses (recoil pads sold separately).

With years of military service and law enforcement duty, there is no surprise that the 590 pump-action shotgun is the ideal choice for your home and personal defense needs. For a complete list of available 590 shotguns, please visit www.mossberg.com.
