Mossberg® Expands 6.5mm Creedmoor Offerings Fourteen MVP® and Patriot™ Bolt-Actions Chambered in Highly-Desired Caliber

North Haven, CT – Mossberg is now chambering fourteen of their bolt-action rifles in 6.5mm Creedmoor; widely-popular with both target shooters and hunters for its flat-shooting, long-range ballistics, on-game performance and low recoil. Mossberg is offering four 6.5mm Creedmoor rifles from its highly-innovative MVP Series – the **MVP LC (Light Chassis)**, **MVP LR (Long Range)**, **MVP Predator** and the newly-released **MVP Precision** bolt-action rifles and ten rifles from its classic bolt-action hunting line – the **Patriot Revere**; **Patriot Predator**; **Patriot Cerakote®**; **Patriot Walnut** and **Patriot Synthetic** versions which are also available in two scoped combo versions; and **Patriot Synthetic Super Bantam Scoped Combo**. All 6.5mm Creedmoor rifles feature a 1:8 twist rate, 5R rifling with 20 or 22-inch barrel length on most models (excluding MVP Precision and Patriot Revere rifles which have 24-inch barrels); and Mossberg's user-adjustable Lightning Bolt Action™ (LBA™) Trigger System that delivers a crisp, creep-free trigger pull. And for ease of adding a suppressor or muzzle brake, five of the models feature a threaded barrel (5/8"-24 threads per inch) with protective thread cap included.

MVP Precision (27962) – This long-range tactical platform features a Mossberg-designed aluminum chassis and slim-profile hand guard; LUTH-AR™ MBA-3 adjustable stock; Magpul® MOE+® grip; 10-round Magpul P-Mag® magazine; and matte blue metal finishes. With its multi-patented design, the MVP Precision rifle will accept both M1A/M14 and AR10/SR25-style magazines. Equipped with a 24-inch medium-bull, threaded barrel and 20MOA Picatinny rail for maximizing long-range capabilities, this MVP can deliver sub-MOA accuracy at 1000 yards and beyond. MSRP: \$1407

MVP LC (28018) - Housed in a lightweight, tan-finished aluminum MDT® chassis, this versatile bolt-action target rifle accepts and reliably-feeds from AR10/SR25-style magazines. Standard features included Magpul® CTR® adjustable stock; MOE® grip; 10-round P-Mag; and matte blue finish on receiver and 20-inch medium-bull, threaded barrel. The MVP LC is designed to be easily customized with the accessories of your choice. MSRP: \$1050

MVP LR (27784) - Featuring a benchrest-style Mosscote™ stock with ergonomically-designed pistol grip and palm swell, this AR magazine-compatible (M1A/M14 and AR10/SR-25-style) bolt-action is designed for long-range shooting sessions. The OD Green-finished, fully-stippled stock has an adjustable, integrated comb with a soft-feel, black rubberized Mosscote finish. The comb can be adjusted for cast (approximately .5 inch of adjustment) and a simple, push button on the stock provides a custom-like fit for proper eye/sight alignment with up to 1.5 inches of height adjustment. Other features include a 22-inch medium-bull, threaded barrel with matte blue finish; dual front and single rear sling swivel studs; and 10-round magazine. MSRP: \$974

MVP Predator (27785) - This more compact rifle has a gray laminate, sporter-style stock with stippling on the forend and pistol grip combined with a matte blue 20-inch medium-bull, threaded barrel. With its patented bolt and latch designs, the MVP Predator allows the use of both M1A/M14 and AR10/SR25-style magazines. Other standard features include sling swivel studs; factory-installed Weaver-style scope bases; and 10-round magazine. MSRP: \$732

Patriot Revere (27984) – This classically-styled, hunting rifle is the flagship of the Patriot bolt-action family. Based on Mossberg's proven twin-lug, push-feed machined-steel action, this bolt-action rifle is fed from a lightweight polymer, flush 4-round box magazine. Features include a semi-fancy European walnut stock with rosewood and maple accents,

Safety and safe firearms handling is everyone's responsibility.

24-inch barrel length and complementing polished blued metal finishes; setting this handsomely-appointed rifle above the competition. MSRP: \$823

Patriot Predator (27875) - The Patriot stock is well-designed for comfort and reduced felt recoil with its straight comb, rounded edges, raised cheekpiece and traditional black rubber recoil pad. Textured stippling on the grip and forend completes the stock design and the Flat Dark Earth finish is ideal for varied terrain. This Patriot Predator has a 22-inch threaded, matte blue barrel. Completing the Predator package is a top-mounted Picatinny rail for optics; oversized bolt handles; spiral-fluted bolts; and sling swivel studs. MSRP: \$441

Patriot Cerakote (28008) – This bolt-action combines a weather-resistant, black synthetic Patriot stock with Cerakote's Stainless (H-Series) firearm coating on the barrel and bolt, providing enhanced protection from abrasions, chemicals and corrosion. Completing the package is a 22-inch fluted barrel length; spiral-fluted bolt; receiver-mounted, weaver-style scope bases and sling swivel studs. MSRP: \$440

Patriot Synthetic (27909) - This Patriot is housed in a black synthetic stock with textured stippling on the grip and the forend with matte blue metal finishes. Other standard features include 22-inch fluted barrel; spiral-fluted bolt; receiver-mounted, weaver-style scope bases; and sling swivel studs. MSRP: \$396

Patriot Synthetic Vortex®-Scoped Combo (28001) – This combo features a Vortex Crossfire® II variable 3-9x40mm scope atop the black synthetic Patriot, making this bolt-action ready to take afield. The riflescope has a hard anodized, single-piece, aircraft-grade aluminum tube that is nitrogen-purged and sealed for waterproof and anti-fog performance. Features include long-eye relief; fast-focus eyepiece; fully multi-coated lenses; resettable MOA turrets; and its distinctive Dead-Hold BDC hash mark reticle eliminates guesswork on holdover and windage corrections. MSRP: \$536

Patriot Synthetic Scoped Combo (28002) – For a more affordable, field-ready option, choose this scoped combo that features a 3-9x40mm variable riflescope. MSRP: \$435

Patriot Synthetic Super Bantam (Youth) Scoped Combo (28027) - Topped with a 3-9x40mm variable riflescope, this compact rifle offering features Mossberg's stock spacer adjustment system which utilizes a one-inch spacer to extend the length-of-pull (LOP) of the black synthetic stock. With smaller proportions, a shorter barrel (20-inch) and overall weight reduction, Super Bantam firearms are ideal for younger shooters or smaller-stature individuals. MSRP: \$435

Patriot Walnut (28026) – This traditionally-styled rifle is housed in an attractive walnut stock with textured stippling on the grip and the three surface areas of the forend, paired with matte blue metal finishes. The Patriot Walnut features a 22-inch fluted barrel; spiral-fluted bolt; receiver-mounted, weaver-style scope bases; and sling swivel studs. MSRP: \$542

Patriot Walnut Vortex-Scoped Combo (28028) – This combo features the walnut-stocked Patriot equipped with Vortex's Crossfire® II variable 3-9x40mm scope. MSRP: \$686

Patriot Walnut Scoped Combo (28000) – With a 3-9x40mm variable riflescope atop this Patriot Walnut rifle, all you need to add is a sling. MSRP: \$584

Mossberg is the only manufacturer that can offer the 6.5mm Creedmoor in a traditional bolt-action rifle platform and the innovative MVP bolt-action rifle series that can utilize both M1A/M14 and AR10/SR25-style magazines.
