FOR IMMEDIATE RELEASE

January 21, 2020

Mossberg® Now Shipping 350 Legend Patriot™ Rifles

North Haven, CT – Looking for a high performance, straight-walled cartridge offering for multi-game, multi-season hunting? Look no further than the latest, mid-year (2019) introductions from Mossberg; the classically-styled **Patriot Synthetic** and **Patriot Synthetic Super Bantam Scoped Combo** bolt-action rifles chambered in 350 Legend. Both rifles are now shipping to dealers.

Built with hunters in mind, the 350 Legend is the fastest straight-walled hunting cartridge available while offering more energy, less recoil and increased penetration over many of its competitors. Combining the 350 Legend on-game performance with the feature-rich Mossberg Patriot bolt-action rifle makes this duo a great choice for deer, feral hogs, black bear and other medium-size game. Deer hunting opportunities are also expanded in areas where straight-walled cartridges are allowed in previously-restricted (slug-shotgun, handgun and muzzleloader) zones.

Patriot bolt-action rifles feature a well-designed stock with straight comb; rounded edges; raised cheek piece; and black rubber recoil pad. Constructed of durable synthetic, the stock has textured stippling on the grip and the three surface areas of the forend for a solid grip. The standard contour 22-inch carbon steel barrel is free-floating, features a 1:16 twist rate and matte blue finish. Completing these offerings are Mossberg’s LBA® user-adjustable trigger (2 to 7-pound range of adjustment); spiral-fluted bolt; streamlined and checkered bolt handle; receiver-mounted, weaver-style scope bases; sling swivel studs; and 4-round box magazine.

For younger shooters or seasoned shooters who require a shorter length-of-pull (LOP), Mossberg’s variable LOP stock, featured on the Patriot Super Bantam Scoped Combo, includes a one-inch spacer. As the user grows, adding the spacer increases the LOP from 12 to 13 inches or simply use the spacer to customize your fit. Ready-to-take afield, the Patriot Synthetic Super Bantam Scoped Combo features a 3-9x40mm riflescope.

The Mossberg Patriot Synthetic and Patriot Synthetic Super Bantam rifles, chambered in 350 Legend, make for a more enjoyable experience in the field without sacrificing performance. For more information on the complete line of Patriot bolt-action rifles, please visit www.mossberg.com.
