**Mossberg® Offers 590® Shockwave® Non-NFA Pump-Action
Compliant 14-Inch Barreled Firearm**

North Haven, CT – O.F. Mossberg and Sons, Inc. introduces the **590 Shockwave** pump-action firearm with 14-inch barrel, pistol grip and overall length of 26.5 inches. Classified by the BATFE (Bureau of Alcohol, Tobacco, Firearms and Explosives) as a “Non-NFA Firearm,” the 590 Shockwave requires no tax stamp for transfers. This compact 12-gauge has all of the features of Mossberg’s legendary pump-action platform combined with the latest innovation from Shockwave Technologies, their Raptor® pistol grip, and a strapped forend for improved handling.

At the core of the 590 Shockwave is Mossberg’s field-proven design which includes non-binding twin action bars; positive steel-to-steel lock-up; an anti-jam elevator; dual extractors; and Mossberg’s universally-recognized, ambidextrous top-mounted safety. The durable, yet lightweight receiver is constructed of anodized aluminum and for convenience, the magazine tube features a clean-out cap. This 12-gauge is 2 ¾ and 3-inch capable with 6-round total capacity and features a 14-inch barrel with bead sight and matte blue finish.

The accessory grip by Shockwave Technologies provides this 590 with its unique moniker. The Shockwave Raptor pistol grip features an enhanced textured finish and has a “bird’s head” shaped-profile, allowing for maximum control while minimizing felt recoil. The grip is constructed of durable, glass-filled polymer with non-reflective, black finish and overall length of 5.25 inches. The cob-styled, tactical forend is strapped for greater control and smoother operation.

Only Mossberg, a leader in the firearms industry and the world’s largest pump-action shotgun manufacturer, can offer a MilSpec 3443-approved pump-action platform (*the only shotgun manufacturer to pass these endurance, accuracy and quality tests*) in a 14-inch barreled non-NFA firearm. For more information on the 590 Shockwave and other compact 500®/590A1™ offerings, please visit www.mossberg.com.

Disclaimer: Although the Mossberg 590 Shockwave is classified as a “firearm” under the Gun Control Act of 1968 (GCA), and is not subject to the provisions of the National Firearms Act (NFA), state and local laws may be more restrictive. Even though, it is legal federally, the 590 Shockwave may be considered a “short-barreled” shotgun or “assault weapon” by certain state and local laws; and therefore illegal to possess. Please check with your local authorities concerning the legality of possessing a firearm of this configuration.

Safety and safe firearms handling is everyone’s responsibility.

About O.F. Mossberg & Sons, Inc.

Founded in 1919, O.F. Mossberg & Sons, Inc. is the oldest family-owned firearms manufacturer in America, and is the largest pump-action shotgun manufacturer in the world. Leading the way with over 100 design and utility patents to its credit, and standing as the first ISO 9001 Certified long-gun manufacturer, Mossberg is considered to be one of the most innovative firearms manufacturers in U.S. History.
