Mossberg® Patriot™ Rifles Now Available with Laminate Stock / Cerakote® Finish

NORTH HAVEN, CT – As a Talo Group Distributor Exclusive, Mossberg is releasing a series of Patriot bolt-action rifles sporting the combination of a handsomely-striking gray laminate stock and premium Cerakote Stainless metal finish. These classically-styled, feature-rich rifles will be available in 308 Win, 6.5mm Creedmoor, 30-06 Sprg, 300 Win Mag and 6.5 PRC chamberings with 22-inch barrel lengths on the short and long-action offerings and 24-inch length barrels on the magnums. Barrels are threaded, ready to accept the shooter’s choice of muzzlebrake or suppressor, and come with a protective thread cap.

The Patriot series of mag-fed, bolt-action rifles combines the most requested features of Mossberg’s field-proven centerfire rifles in a premium bolt-action platform. Patriot rifles feature a streamlined bolt handle; aggressively-checked bolt knob; spiral-fluted bolt; and a classically-styled stock. Modern textured stippling on the sides and bottom of the forend and grip provide a positive hold in inclement weather and the straight comb design with raised cheekpiece may provide comfort and less felt recoil. A black rubber recoil pad and sling swivel studs complete these bolt-actions. And all Patriot rifles feature Mossberg’s user-adjustable LBA trigger system for a clean, crisp trigger break.

Adding to the distinct look of this series is a durable, yet attractive, gray laminate stock, complemented by a Cerakote Stainless metal finish. This polymer-ceramic finish provides superior abrasion and wear resistance plus added anti-corrosion protection.

Looking for an extreme conditions rifle that is as attractive as it is durable? Look no further than this exclusive line of Patriot Laminate Stock / Cerakote Finish bolt-actions in five popular calibers. See your local dealer today or visit www.mossberg.com for more information on these rifles and the expansive family of Patriot rifles.
