Mossberg® Releases Two New 20-Gauge 590® Shockwave Pump-Actions

NORTH HAVEN, CT – O.F. Mossberg & Sons, Inc., a leading American firearms manufacturer, announces the release of two 20-gauge 590 Shockwave pump-action firearms: the **590 Shockwave equipped with the Crimson Trace® LS-250 Lasersaddle™ Red Laser Sight** and the **590 Nightstick**. This expanding series of Mossberg 14-inch barreled pumps in 12 gauge, 20 gauge and 410 bore are compact in size but designed to protect; whether at home, in the woods or on the water.

Built on Mossberg’s proven pump-action design, the 590 Shockwave features an overall length of 26.37 inches; 14-inch heavy-walled barrel; non-binding twin action bars; positive steel-to-steel lock-up; an anti-jam elevator; dual extractors; and an ambidextrous, top-mounted safety. Other features include a clean-out tube; drilled and tapped anodized aluminum receiver; cylinder bore barrel with single bead sight; and sling swivel studs. Unique to the 590 Shockwave models are a “bird’s head” shaped grip with a strapped, corn-cob forend, which combined allows for greater control; safe clearance of the lead hand from the muzzle; and lessened felt recoil.

590 Shockwave with LaserSaddle – Pairing this 20-gauge pump-action platform with a sighting system allows for peak performance out to 50 feet. The innovative LS-250 LaserSaddle has a powerful 5mW red laser, secured onto the receiver. Features include easy On/Off Switch; three distinct activation pad points, including one that can be accessed by left-handed users; and is user-adjustable for windage and elevation. The distinctive “bird’s head” grip and corn-cob forend on this 590 Shockwave are black synthetic and the metalwork has a matte blue finish. A handy strap, bearing the Mossberg logo, is attached to the forend. MSRP: \$613

590 Nightstick – For a retro look and feel, choose this 20-gauge 590 Shockwave. This model features a wood “bird’s head” grip and 1960’s-era styled wood forend. The leather forend strap is stamped with the Mossberg logo. MSRP: \$535

This popular firearm series does not fall under NFA restrictions, per the BATFE, and therefore, it requires no tax stamp for transfers. For a complete listing of 590 Shockwave pump-actions, please visit www.mossberg.com.
