New Mossberg® Firearms Accessories for 2020

NORTH HAVEN, CT – O.F. Mossberg & Sons, Inc., a leading American firearms manufacturer, announces two new accessories available through your local firearms retailer: the **Mossberg 450 Bushmaster Muzzle Device** and the **Mossberg Stand-Off Choke Tube** for any 12-gauge Accu-Choke™ barrel.

Mossberg 450 Bushmaster Muzzle Device (Item # 95282) – Designed to fit Mossberg Patriot bolt-action rifles, chambered in 450 Bushmaster with threaded barrels (11/16”–24 threads per inch), this muzzle device dramatically reduces muzzle flash and recoil. Multi-directional ventilation ports, internal threading and blast baffles allow for improved muzzle control, flash mitigation and reduced recoil. The target crown maintains projectile stabilization and accuracy. Constructed of 4140 heat-treated steel with a corrosion-resistant coating, the 450 Bushmaster Muzzle Device provides long-lasting durability and performance. Mounting does not require a crush washer or shims for timing or alignment and is easily installed with a 3/4-inch open end wrench.

Mossberg Stand-Off Choke Tube (Item# 95417) – Add stand-off capability to any Mossberg 12-gauge pump-action shotgun that features our Accu-Choke barrel (500®, 590®, 535™ and Maverick® 88 models) with the convenience of this screw-in choke. Constructed of 4140 heat-treated steel with corrosion-resistant coating, this Stand-Off Choke features serrated teeth at the muzzle to provide solid purchase when placed against varied surfaces. The angled ports vent gases away from the muzzle, while reducing muzzle flash. With the Accu-Choke System, installation is as simple as screwing the tube into the barrel without need for tools.

Look to Mossberg for your firearms accessory needs – chokes, barrels, triggers, stocks, forends and more. Visit your local dealer today or order direct from factory at www.mossberg.com.

About O.F. Mossberg & Sons, Inc.

Founded in 1919, O.F. Mossberg & Sons, Inc., is the oldest family-owned firearms manufacturer in America, and is the largest pump-action shotgun manufacturer in the world.
